DIRECTORY BORROWERS

WE RECEIVE many complaints from our patrons to the effect that they are bothered so much by **BORROWERS.** These parties are not the private citizen nor the stranger in the city, who steps in, looks at the Directory and goes out, but merchants, business and professional men, who need a Directory every day of the year, yet who are too close-fisted to buy one.

These same individuals are the ones that borrow your Directory "just for a minute," which, in the majority of cases, means a day or perhaps a week, unless you remember that they have it and send for it.

These same borrowers will tell the Directory canvasser that he has "no use for a Directory," that he "knows everybody," and, vice versa, "everybody knows him."

Diamond Wall Plaster.

A pure selenitic cement mortar for plastering purposes employing White Lead and Oil as retarders. It is in every way superior to best lime mortar as regards

TENSILE STRENGTH,
TOUGHNESS, HARDNESS,
DURABILITY AND
FIRE AND WATER-PROOFING QUALITIES,

besides, being less in first cost than OLD STYLE lime mortar prepared by OLD STYLE METHODS.

In one hour after using it may safely be

Painted, Tinted or Papered,

thus saving the weeks of time required by lime mortar to harden.

Diamond Plaster is a complete cement, requiring the addition of water only to prepare it for immediate use, and since 1890, when it was first introduced in Indianapolis, it has been furnished to over 5,500 dwellings, store-rooms, etc.

For further information, apply to

Diamond Wall Plaster Co.,

DIRECTORY BORROWERS

WE RECEIVE many complaints from our patrons to the effect that they are bothered so much by **BORROWERS.** These parties are not the private citizen nor the stranger in the city, who steps in, looks at the Directory and goes out, but merchants, business and professional men, who need a Directory every day of the year, yet who are too close-fisted to buy one.

These same individuals are the ones that borrow your Directory "just for a minute," which, in the majority of cases, means a day or perhaps a week, unless you remember that they have it and send for it.

These same borrowers will tell the Directory canvasser that he has "no use for a Directory," that he "knows everybody," and, vice versa, "everybody knows him."

ELWOOD, IND., AUGUST 29, 1892.

Messrs. Jacob & Co., Indianapolis, Ind.:

GENTLEMEN:—We hereby confirm order of our Superintendent, Mr. Baird, to you for one large bevel gear wheel pattern, 8 ft. 4¼ in., diameter, *and in all respects to be exactly like drawing* left with you. There were several parties wanting to make this pattern, but knowing it to be a difficult piece of work, and having confidence in your ability to do the work right, we concluded to place the order with you.

Very truly yours,

ELWOOD IRON WORKS,

Per JOHN HOLLORAN, Pres't.

TO FACTORIES, FOUNDRIES, ETC.

You are using machinery that can be improved.

You desire working drawings, blue prints, plans, specifications, etc.

We can design and build you special machinery, make your drawings, blue prints, etc.

You are caused frequently to witness certain parts of your machinery broken, and must have broken part replaced at once.

You use heavy machinery, pulleys, gears, etc. If they break, ship them to us and we will make pattern and casting, finish casting and send same to you at earliest possible moment.

If you have large gears, etc., that are liable to break, send us word and we will come and make drawings, then furnish pattern casting, etc., as desired.

We make patterns of every description, in either wood or metal, for cast iron, malleable iron, brass, steel, etc.

We have one of the largest pattern and model shops in the West.

We make a specialty of large bevel and spur gears up to fourteen feet in diameter.

We have special room prepared for experimental work, and all improvements made by us while working on such work, becomes the property of the inventor employer.

An inventor should take out a caveat on his invention and then have the invention made practical, and apply for letters patent in its complete working order, thus saving much expense and giving a more valuable invention. All this we can do, having many years experience in this line.

Write us for full information.
